

Material Safety Data Sheet (MSDS)

Dong Ho After Care Series

1 Identification

Product Name: Dong Ho After Care Series

Product Description: Topical skin cream

General Or Generic ID:

PEL/TLV NOT APPLICABLE

www.dhtattoo.ink

2 Hazards Identification

Eye Contact: Avoid contact with the eyes. May be irritating.

Skin Contact: No adverse effects due to skin contact are expected. Stop use if irritation persists.

Inhalation: Not expected to be irritating to the respiratory system.

Ingestion: Do not ingest.

Other Health Effects: None.

Classification of the substance or mixture: Non-hazardous mixture.

Not expected to present a significant hazard under conditions of normal use.

3 Composition and Information on Ingredients

Hazardous Components:

This information is not looking at the product as a whole, but at individual components within the product.

The finished product contains no components classified as hazardous. There are no physical hazards expected when the product is used as directed and intended.

4 First-Aid Measures

Description of first aid measures:

General information: Not expected to be a health hazard when used under normal conditions.

After inhalation: Supply fresh air; consult doctor in case of complaints.

After skin contact:

Wash with soap and water.

If skin irritation occurs, consult a doctor.

After eye contact:

Rinse opened eye for several minutes under running water.

If eye irritation occurs, consult a doctor.

After swallowing: If swallowed and symptoms occur, consult a doctor.

Information for doctor:

Most important symptoms and effects, both acute and delayed: No further relevant information available.

Indication of any immediate medical attention and special treatment needed: No further relevant information available.

5 Fire-Fighting Measures

Fire Fighting Media and Instructions: Use water spray, fog or foam.

Fire Fighting Equipment / Instructions: Self-contained breathing apparatus and full protective clothing should be worn when fighting chemical fires.

6 Accidental Release Measures

For household settings: Clean with hot water and detergent.

For non- household settings: Use safety glasses or safety goggles if splash hazard exists; use gloves and other protective clothing (apron, boots, etc.) to prevent skin contact.

7 Handling and Storage

Precautions: Keep away from heat. Keep away from sources of ignition.

Storage: Keep container tightly closed. Keep container in a cool, well-ventilated area. Storage temperature: 15 - 25°C.

8 Exposure Controls/Personal Protection

Engineering Controls: Provide adequate local exhaust ventilation to maintain worker exposure below exposure limits.

Protective measures: In an industrial work environment, if a splash is likely, chemical goggles may be needed. Prolonged skin contact may require protective gloves. For consumer use, no unusual precautions are necessary.

General Hygiene Considerations: In an industrial work environment, avoid eye and prolonged skin contact. Use good general industrial hygiene practice and GMP practices.

9 Physical and Chemical Properties

Physical state: Viscose Liquid.

Color: White.

Odor: Characteristic odour.

pH: 6-7.

%Non-volatiles: Not applicable %.

Specific Gravity (density): Not applicable.

Flash point (°C): Not applicable.

Freeze point (°C): Not applicable.

Boiling Point (°C): Not available.

Partition coefficient (n-octanol/water): Not measured

10 Stability and Reactivity Data

Reactivity: This mixture will not produce any reactive byproducts under normal conditions.

Stability: Chemically and physically stable under normal conditions.

Conditions to avoid: Will liquify above 40°C. Keep from excessive heat.

Incompatible materials: Avoid contact with strong oxidizing agents.

Possibility of hazardous reactions: None known.

Hazardous decomposition or byproducts: None if used for intended purpose.

11 Toxicological Information

This is a personal care product that is safe for consumers and other users under normal and reasonably foreseen use.

Chronic effects: Finished product is not expected to have chronic health effects.

Target organs: No adverse health effects on target organs expected for finished products.

12 Ecological Information

The product ingredients are expected to be safe for the environment at the concentration predicted under normal use and accidental spill scenarios.

Persistence and degradability: No data available.

Bio-accumulative potential: No data available.

Mobility in soil: No data available. Product mobility predicted to be poor.

13 Disposal Considerations

Waste Disposal: Waste must be disposed of in accordance with country and local environmental control regulations (contact local and country environment agency for specific rules). Do not dump in sewers, any body of water or on the ground.

14 Transport Information

Finished package product transported by ground (DOT): Non hazardous. Not regulated.

Finished package product transported by vessel (IMDG): Non hazardous. Not regulated.

Finished package product transported by air (IATA): Non hazardous. Not regulated.

15 Other Regulatory Information

Not Available.

16 Other Information

References: Not available.

Other Special Considerations: Not available.
